

PARENT WORKSHOPS

Intent:

To ensure all parents and carers have access to the necessary information to support their child. Also to ensure all understand the school’s curriculum and its statutory requirements.

Implementation:

Workshops are held at various points throughout the academic year. They may reflect the school’s current curriculum and initiatives, detail statutory information or provide support. They are led by the member of staff in charge of the workshop theme. Slides from the workshop are shared with the whole school community following the workshop. They may showcase work, resources or teaching pedagogy.

Impact:

Parents and carers are provided with information and support about the given topic to equip them to best support their child and make informed decisions.
